**32 and 33 South Market Street,
and 19 Chatham Street,
BOSTON, MASS.**

1906

To Our Patrons.

We have pleasure in presenting our Autumn Catalogue, and sincerely thank our customers for their patronage and kind recommendations.

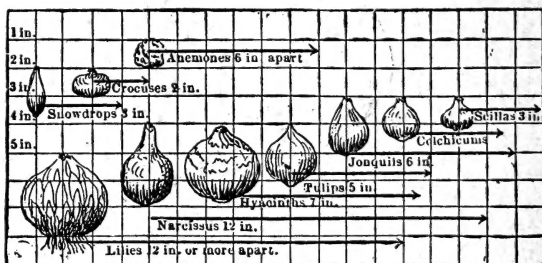

The quality of the bulbs and seeds we sell is our first consideration. **We buy no second grades.** Our bulbs are of the very highest quality, imported direct from the best growers in **Bermuda, France, and Holland.**

Early Orders. It is advisable to get your bulbs in the ground as early as possible after the first of October, although bulbs can be planted as late as they can be got in the ground. Yet those planted early give finer flowers, as it is necessary for bulbs to make some root growth in fall to give best results

Depth Bulbs Should Be Planted.

We are continually having letters from customers inquiring what depth to plant certain bulbs. The following chart, published in a recent issue of the "American Gardening," seems to illustrate this

point equal to anything published, giving not only the depth, but the distance apart that bulbs should be planted.

OUR TERMS ARE NET CASH. All bills on which short credits are allowed are due the first of the month succeeding the date of purchase. Bills on which longer time is desired must be provided for by special agreement.

ADDRESS, ETC. When ordering be sure and write your address distinctly, naming town or city, county and State, and be sure and give your nearest express office. Where no particular mode of transportation is stated, we shall use our best judgment.

Situations Wanted.

We will be pleased at all times to receive inquiries from any person desiring the services of Gardeners, Farmers, or Assistants. We keep a list of reliable persons wanting such situations, and recommend only such as we think are competent to meet the requirements of employer. We make no charge for our services.

HYACINTHS.

Hyacinths are great favorites with all flower lovers on account of the ease with which they are cultivated, their varied colors, their beauty, and their fragrance.

CULTURE IN POTS.—Select solid bulbs without regard to size for this purpose, and place a single bulb in a five-inch pot filled with any good potting soil; a light, rich soil is preferable; and place the bulb in firmly, but do not have the soil hard beneath it, leaving about one third of the bulb visible. After potting, give them a good watering and set away in some cool, dark place, and cover six or

eight inches with soil or cocoanut fiber, that the moisture may be retained and the frost or heat excluded. Leave in this condition until well rooted, and then for a succession of blooms bring to the light some every two weeks, bearing in mind that they should not be placed directly in the sun at first, as they will need several days to get acclimated to the new atmosphere. The bulbs should be selected and potted as early as possible to obtain the best results.

CULTURE IN GLASSES.—The single varieties are better adapted for glass culture than the double, and the best-named sorts should be selected. Soft water should be used in filling the glasses, a little charcoal put in, and the bottom of the bulbs allowed to just come in contact with the water. They should then be put in a dark, cold place till the roots are four or five inches long, a little additional water occasionally as it evaporates, and then brought into light and warmth as directed for culture in pots.

OUTDOOR CULTURE.—The bulbs may be planted any time after the beginning of October and before the winter frosts set in. Any good, well-drained garden soil will answer. Dig deep, and mix in a little decomposed manure; set the bulbs from three to four inches below the surface, and about six inches apart; after the ground becomes frozen, give a good covering of stable litter. In spring, about two weeks after the flowers have faded, the bulbs may be lifted, cleaned, packed in a box of dry sand, and stored away in a cool place until wanted again for planting in the fall.

We deal only in FIRST-CLASS BULBS.

Named Hyacinths.

Large selected bulbs of best varieties for house culture in earth or water. As the single Hyacinths give the most satisfactory results, we always send a larger proportion of single than double, unless specially ordered to the contrary.

	Each	Each
Single Red and Rose.		
Baron Von Thuyll. Pale rose; large spike; one of the best for forcing	\$.12	Rousseau. Blush white; large truss
Chas. Dickens. Rose; large spike	.15	Voltaire. Creamy white; large bells; fine truss
Fabiola. Beautiful rose; carmine striped; large spike	.15	
Garibaldi. Brilliant carmine; large truss	.20	Single Blue.

Collections of Named Hyacinths.

For the convenience of our customers we have put up the following collections. They comprise those sorts which our experience has led us to select, and we can recommend them as most worthy of cultivation. When ordering please state whether the bulbs are for culture in pots or glasses.

Collection No. 1—12	Named Hyacinths, for pots	\$1.50
" No. 2—12	" " " glasses or pots	1.50
" No. 3—25	" " " pots	2.75
" No. 4—25	" " " glasses or pots	2.75
" No. 5—12	Choicest Named Hyacinths, best exhibition sorts	2.00

Named Forcing and Bedding Hyacinths.

Large, firm bulbs specially selected for planting in beds or forcing in pans, giving large, full spikes of bloom in the following colors:—

Bright Red,	Pure White,	Dark Blue,
Rose,	Blush White,	Light Blue,
Pink,	Yellow,	Porcelain Blue.

10 cts. each; \$1.00 per dozen; \$8.00 per 100.
Add 15 cts. per dozen to above if sent by mail.

Superior Un-named Hyacinths.

These are made up of varieties selected for beds and borders, or for forcing for cut flowers, and are of such superior quality as to be entirely satisfactory to florists who use large quantities of them.

Single Varieties.				Double Varieties.			
	Each	Doz.	Per 100.		Each	Doz.	Per 100.

" " (" "), White	.03	.20
Musk " " (" " Moschatum), Purplish color	.12	1.25

Single Early Named Tulips.

Of all bulbs grown, the Tulip is, without doubt, the most popular. It is hardy, easily grown, and if cultivated properly, retains its peculiarity of marking for an indefinite period. If allowed to remain in the ground one year after year, the bulbs work so deeply into the soil that they become weak and lose much of their beauty. The proper method is to take them up every year, and the bulbs when packed away in a dry place will be safe until the next fall. They require similar cultivation to Hyacinths, except they should not be planted so deep.

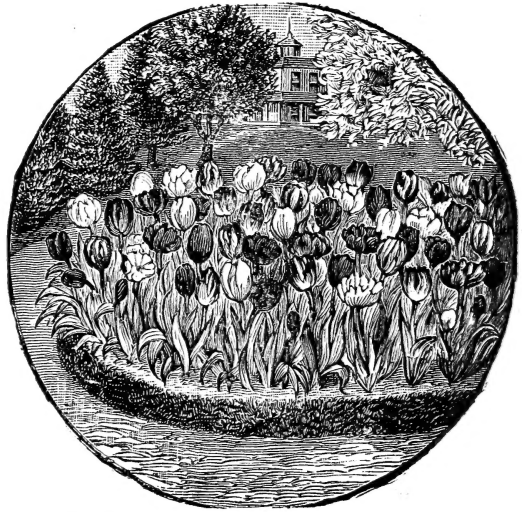

The letters following the varieties indicate their earliness. Those marked "A" are the earliest and flower together, and those marked "B" follow, etc. The figures indicate the height attained in inches.

	Per Doz.	Per 100.
Artus. B 7. Scarlet, fine for forcing	\$.30	\$2.00

Late Flowering Single Tulips.

These are known as the "May-flowering Tulip," and closely follow the season of the early single sorts. They are largely cultivated on account of their individual beauty, being possessed of great variation of form and color, the latter being rich and distinct.

	Per Doz.	Per 100.
Darwin. These new late flowering Tulips have attracted much attention in the past three years, and have been a success wherever grown and exhibited, both in this country and Europe. The flowers are single, of elegant form, and exceedingly bright colors	\$.35	\$2.50
Bizarres. Rich flowers of perfect shape, having a yellow ground color, feathered, or striped with crimson, purple, or white; choicest mixed30	1.50
Rose Byblømens. Magnificent flowers, having white ground color, stripes and markings of crimson, pink, scarlet or rose; mixed varieties25	1.50
Violet Byblømens. Having white ground with black, violet, purple to pale lilac markings; mixed varieties25	1.50
Gesneriana. The tallest, largest flowered, and showiest of all Tulips. Height 2 to 3 feet. Flowers of enormous size, and the most durable of all Tulips, as it holds its color and keeps perfect several weeks; flowering in May. Color, crimson-scarlet, with blue-black center30	2.00

Our Tulip Bulbs produced many prize takers.

Narcissus.

The numerous varieties of Narcissus are very beautiful, and are among the most popular of our flowering bulbs for both garden and house culture; the double and single varieties, being perfectly hardy, are better suited for general outdoor planting, and after once planted they may remain undisturbed for several years; but in time they will become so thick and matted together that re-setting will be necessary. The Polyanthus varieties may be planted out if a good covering of leaves or litter is given them to exclude the frost, when they will make an excellent show in the spring, and well repay for any extra trouble. All the varieties are excellent for growing in the house, and with similar soil and treatment to that recommended for Hyacinths, very satisfactory results are sure to be obtained.

INCOMPARABLE.

Polyanthus Narcissus.

The varieties of this group produce an abundance of large trusses of very sweet-scented flowers, varying in color from pure white to deep golden yellow; easily cultivated and excellent for pots and forcing.

	Per Doz.	Per 100.
Double Roman. White, with double citron-colored cups, very early, fine forcer	.30	2.00
Gloriosa. Pure white, with orange cup	.50	3.50
Grand Monarque. Large, white, with lemon-yellow cup	.60	4.00
Grand Primo. White, citron cup	.50	3.00
Jaune Supreme. Large, yellow, with orange cup	.60	4.00
Newton. Large, pure yellow, with orange cup	.50	3.50
Paper White. Pure white flowers in clusters, very fragrant	.25	1.50
Paper White, Grandiflora. New large flowering, pure white, early, fine for forcing	.30	2.00
White Pearl. Pure white	.75	4.50
Staten General. White, with citron cup, shading to white	.40	3.00

Single Narcissus.

	Per Doz.	Per 100.
Ard Righ (Irish King). Deep yellow trumpet; early	.75	5.00
Bicolor Empress. Immense golden yellow trumpet, with a broad white perianth of great substance	.65	4.00
Bicolor Grandis. Extra large yellow trumpet, beautifully imbricated with broad white perianth	.50	3.00
Bicolor Horsfieldi. Very large flowers of pure white, with rich yellow trumpet; magnificent flower	.60	3.50
Bicolor Victoria. Clear yellow trumpet; creamy white perianth	.75	5.00
Biflorus. Pure white perianth, with yellow cup; two flowers are borne on every stock	.25	1.25

Cynosure. Large primrose perianth; cup yellow; conspicuously stained with orange-scarlet; remarkably showy; fine for cutting	.25	1.50
Emperor. One of the finest; large, rich yellow trumpet, with lighter yellow perianth	.60	3.50
Golden Spur. Extra large, bold rich yellow flowers, one of the finest	.60	4.00
Henry Irving. Beautifully frilled trumpet, color rich golden yellow	.60	4.00

You ought to try some Narcissus; they are beautiful.

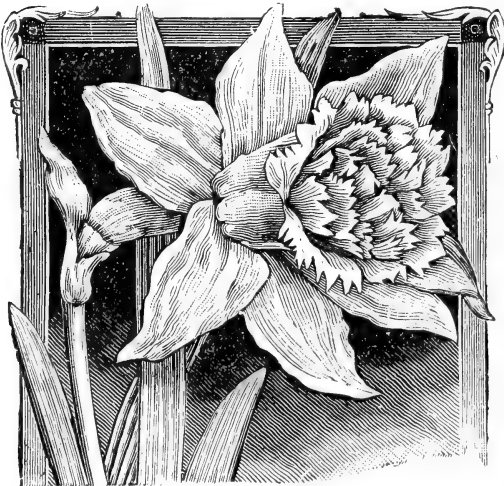

Single Narcissus, Continued.

	Per Doz.	Per 100.
Incomparabilis Sir Watkin. The largest variety grown, perianth rich sulphur, very broad and imbricated, trumpet large deep yellow, tinted with orange	\$.50	\$ 3.00
Incomparabilis Stella. Perianth white and slightly twisted, with yellow trumpet, fine for forcing	.25	1.50
Obvallaris. Elegantly formed medium-sized flower, rich yellow, one of the earliest, fine for forcing	.50	3.00
Poeticus. Pure white, with orange cup edged with crimson, fine for cutting	.15	.75
Poeticus Ornatus. Pure white, with saffron cup, tinged with rosy scarlet, a magnificent cut flower	.25	1.50
Princeps. Large yellow trumpet, sulphur white perianth, very early, fine flower, splendid variety	.25	1.50
Trumpet Major. Large, golden yellow, fine forcer	.35	2.00
Trumpet Maximus. Very large flowers, deep golden yellow with elegantly twisted perianth	.75	5.00

Double Narcissus.

All the Double Daffodils are perfectly hardy for garden culture, and equally well adapted for forcing. They are exceedingly effective and showy, and delicately fragrant.

	Per Doz.	Per 100.
Alba Plena Odorata. Double snow-white flowers, exquisitely scented	\$.20	\$ 1.25
Incomparable Fl. Pl. Full double flowers of rich yellow, with orange center, hardy, fine for forcing	.20	1.25
Orange Phoenix. Beautiful double white flowers with orange center, splendid for cut flowers and pot culture	.30	2.00
Silver Phoenix. Large creamy-white flower with sulphur center, exquisite corsage flower, and fine for growing in pots	.75	5.00
Von Sion. The famous "Old Double Yellow Daffodil," rich golden yellow perianth and trumpet, one of the best forcing sorts	.30	2.50
Von Sion. Extra Large Bulbs. Selected, strictly true Dutch-grown, massive flowers	.50	3.50

VON SION.

Jonquils.

Excellent for early blooming, charming, large, golden and deliciously fragrant flowers, freely produced; of the finest effect either in the garden, greenhouse, or conservatory.

Double Sweet-Scented. Fine yellow, per doz., 40 cts.; per 100, \$2.50.

Single Sweet-Scented. Rich golden yellow in trusses, per doz., 15 cts.; per 100, 75 cts.

Campernelle. Very large, rich yellow flower, per doz., 20 cts.; per 100, \$1.00.

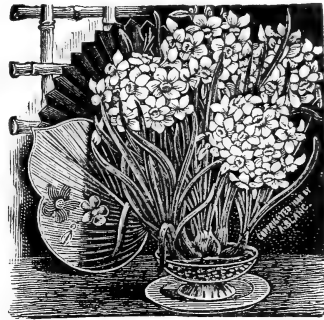

Odorus Rugulosus. New large flowering, deep yellow, crinkled flowers; exceedingly fragrant and very desirable for forcing or open garden, per doz., 20 cts., per 100, \$1.25.

Jonquils are very sweet-scented.

Chinese Sacred Lily.

The Chinese Narcissus is very easily grown. When grown in water, shallow dishes, about three inches deep, should be used, into which put about an inch of gravel; on this set the bulbs and fill in with small stones to keep them upright, and keep the dish full of water. Keep shaded until the leaves begin to grow. The yellow and white flowers are freely produced. For a window ornament they are unexcelled.

We offer the true Chinese grown variety, 10 cts. each; \$1.00 per doz. Original basket of 30 bulbs, \$2.00. Add 6 cts. each if sent by mail.

CHINESE SACRED LILY.

Crocus.

This favorite of the garden is one of the earliest to flower in spring, often displaying its bright and lovely blossoms early in March. Plant the bulbs two or three inches deep; they are hardy, and may remain in the same ground undisturbed for many years.

CROCUS.

Large Named Crocus.

These are large, selected bulbs, for beds, borders, lawns, and pot culture.

	Per Doz.	Per 100.
Baron von Brunow. Dark purple	\$0.15	\$0.75
Caroline Chisholm. Splendid, white	.15	.75
Czar Peter. Light blue	.15	.75
La Majestueuse. Violet striped	.15	.75
Lord Palmerston. Dark purple	.15	.75
Madam Nina. Light-blue, striped	.15	.75
Mammoth. Pure white	.15	.75
Mont Blanc. Largest, pure white	.15	.75
Purpurea Grandiflora. Dark purple	.15	.75
Sir Walter Scott. White, striped purple, extra	.15	.75

Yellow Mammoth. Large, golden yellow, extra	.15	\$1.00
Mixed, from above-named varieties	.15	.75
	Per 100.	Per 1000.
Blue. All shades, mixed	.40	\$3.50
Striped. All shades, mixed	.40	3.50
White. " " "	.40	3.50
Golden Yellow	.50	4.00
All Colors Mixed	.40	3.50

Alliums.

Neapolitanum. Remarkably beautiful, with large heads of pure white flowers; excellent for forcing and out-of-door culture; much used by florists, 15 cts. per doz.; \$1.00 per 100.

Moly. Bright yellow, very showy border plant, 15 cts. per doz.; \$1.00 per 100.

ALLIUM NEAPOLITANUM.

No collection complete without the Chinese Lily.

Amaryllis.

These are best suited for pot culture, and should be planted in a six or seven inch pot according to the size of the bulb, and when established they should bloom every year; after blooming they make their growth, and should have occasional waterings with liquid manure till about September, when allow them to rest and give them very little water; a soil composed of loam, leaf mold, and sand should be used and good drainage given.

	Each.	Doz.
Belladonna Major. White, flushed with rose, beautiful and fragrant	\$.25	\$2.50
Lutea. Golden yellow, hardy with usual covering10	.75
Vallotta Purpurea. Large, crimson-scarlet25	2.50
Vittata Hybrids. Beautifully flaked and striped50	5.00

Anemone. (Wind Flower.)

Very handsome spring and autumn flowering plants; they succeed best outside when protected by frames; a rich, sandy loam with good drainage is necessary; roots should be planted three inches deep and five or six inches apart, and heavy damp soils avoided, as they are almost sure to decay, or the plants damp off soon after starting. Anemones make splendid pot plants, if planted one in a four or five inch pot, kept in a cool place, and water withheld until they commence their growth, when they may be given more warmth and water enough to keep them moist; avoid excessive wettings.

	Each.	Doz.	Per 100.
Fulgens. Rich dazzling scarlet, most brilliant and graceful	\$.05	\$.40	\$3.00
Double Mixed. Extremely handsome, double-flowered varieties20	1.50
Single Mixed. Beautiful Poppy-like blossoms in variety of colors15	1.00

Anomatheca Cruenta.

These are fine for window gardens or pot culture; should be planted late in a light, sandy loam, and will commence to bloom in the spring and produce for several weeks rich carmine-crimson flowers. 3 cts. each; 25 cts. per doz.

Calla Lilies.

Fine decorative plants for sitting room or conservatory.

	Each.	Doz.
White Calla or Nile Lily	\$.15	\$1.75
White Calla. Extra Large Bulbs30	3.00
Little Gem. This fine white Calla is of very low growth, and produces its clear white blooms abundantly; very useful in floral work20	2.00
Spotted Calla (A. Alba Maculata). A grand ornamental pot plant with pure white flowers and handsome deep green leaves spotted with white15	1.00

Arums.

A genus of curious and ornamental perennials, with peculiar and distinct foliage and flowers. They make handsome pot plants, and are also very effective in sub-tropical gardening.

	Each.	Doz.
Arum Dracunculus (Dragon Flower). This ornamental plant grows to a height of 3 feet, and has a very large brownish black flower, and handsome foliage borne on a mottled stem. Hardy in New England with slight covering	\$.15	\$1.50
Arum Palestineum Sanctum (Black Calla). Large, purple black flower and fine dark green foliage15	1.50

Babiana.

A group of dwarf spring flowering greenhouse plants, with dark green hairy leaves. The colors range from brilliant scarlet to pale lavender and pink. 3 cts. each; 30 cts. per doz.

Arums are easily grown in the house.

Tuberous-Rooted Begonias.

Ready in November.

Splendid pot plants for the house or greenhouse; also for bedding out in summer in partial shade.

	Each.	Doz.	Per 100.		Each.	Doz.	Per 100.

Brodiaea.

Half hardy bulbs from the Pacific coast. They have narrow grassy leaves, slender stems, and bear clusters of long tube-shaped flowers.

Brodiaea grandiflora. Bright blue. 5 cts. each; 50 cts. per doz.

Calochortus. (Mariposa Lily, or Butterfly Tulip.)

Very handsome bulbous plants from California. They grow freely in light sandy soil, and though hardy they should be protected by litter during winter or kept in a cold frame. The colors are very brilliant, and the graceful habit of growth makes them very effective if planted in clumps.

	Each.	Doz.
Calochortus luteus. Deep orange	\$.10	\$1.00
Calochortus Venustus. White with yellow base, petals are feathered with crimson10	1.00

Camassia. (The Quamash of the Indians.)

As a border plant its dark blue flowers show to perfection in the early spring.

Camassia Esculenta. 5 cts. each; 25 cts. per doz.

Chionodoxa. (Glory-of-the-Snow.)

One of the most beautiful spring flowering plants in cultivation, and thoroughly hardy. It grows taller than Scilla Siberica; flowers longer and more numerous. Every one admits that it is a gem among spring flowers. For pots it is very useful, and for edgings, masses, or beds it is remarkably effective and beautiful.

	Each.	Doz.	Per 100.
Lucillia. Brilliant blue flowers with white center	\$.03	\$.20	\$1.50
Sardensis. Intensely deep blue, very fine03	.20	1.50
Gigantea. Beautiful, large flowering variety, with blue, white-centered flowers, exquisite03	.25	1.75

Colchicum. (The Autumn-Flowering Crocus.)

These beautiful hardy flowers resemble the Crocus, but bloom in the fall about September, and the leaves appear in the early spring.

Colchicum Autumnal. Mixed colors. 5 cts. each; 50 cts. per doz.

Crown Imperials. (Fritillaria Imperialis.)

These are hardy border plants of handsome and stately appearance, producing whorls of pendant, bell-shaped blossoms.

Crown Imperials. Mixed colors. 10 cts. each; \$1.00 per doz.

Begonias are easily grown in the house.

Cyclamen Persicum Giganteum.

One of the most ornamental and best adapted plants for winter blooming, grows readily and flowers freely for a long period. The foliage being handsomely mottled is highly ornamental. The bulbs should be planted in a compost of loam, leaf mold, and sand, and about half covered, leaving the crown or top of the bulbs clear; then with plenty of light, air, and temperature of about 60 degrees they may be grown to perfection. Good drainage is essential. During the summer they may be allowed to rest, giving very little water.

	Each.	Doz.
Grandiflorum, White, Rose, and Dark Red	\$.25	\$2.50
Finest Mixed Varieties20	2.00

Dicentra Spectabilis. (Bleeding Heart.)

One of the best-known, hardy border plants. The flowers are borne on long racemes of a beautiful rose color. Strong plants, 15 cts. each; if ordered by mail, 25 cts.

Eranthis Hyemalis. (Winter Aconite.)

The earliest of all the spring flowering hardy bulbs. The color is of a rich golden yellow. 2 cts. each; 20 cts. per doz.

Erythronium. (Dog's-Tooth Violet.)

Very ornamental, hardy, bulbous plants. Planted in groups in a border or shrubbery or other sheltered position they are admired by all.

Erythronium Dens-canis. Mixed Colors, 5 cts. each; 30 cts. per doz.

Freesia.

The Freesia is one of the most popular and valuable early spring flowers, either for pot culture or in the house or greenhouse; also for florists' use. Should be planted early, from six to eight bulbs in a six-inch pot; use sandy loam with a mixture of decomposed manure. The flowers somewhat resemble a small tuberose, and are delicately fragrant.

As this beautiful flower is very easily cultivated, we recommend free planting for both window and greenhouse.

Refracta Alba. 20 cts. doz.; \$1.00 per 100.

Refracta Alba. Extra large, 25 cts. doz.; \$1.50 per 100.

Gladiolus.

Colvilli Alba. Very beautiful pure white flowers closely set along the stem; invaluable for floral work, as the flowers keep a long time. 3 cts. each; 20 cts. doz.; \$1.25 per 100.

Colvilli. Crimson-purple and white. 3 cts. each; 20 cts. doz.; \$1.25 per 100.

FRESIA REFRACTA ALBA ODORATA.

Cyclamen make a grand house plant.

Gloxinias.

Magnificent, hothouse, perennial, bulbous plants, producing their gorgeously colored flowers in the greatest profusion. Our strains of these beautiful plants are quite unapproached for the size and fine colors of the flowers.

Separate Colors, 15 cts. each; \$1.25 per doz.

Choicest Mixed, 15 cts. each; \$1.25 per doz.

Hyacinthus Candicans.

For planting in borders or among shrubs there is no bulb better adapted than this hardy, giant, flowering Hyacinth. The flowers are borne on a central stem that grows to a height of 4 feet.

Strong bulbs, 5 cts. each; 50 cts. per doz.

If ordered by mail, add 3 cts. each for postage.

GLOXINIA HYBRIDA ERECTA.

Iris. (Fleur de Lis.)

Elegant free-flowering bulbs, fine for beds or borders. They are all hardy. Set the bulbs in clumps two inches apart each way, and three inches deep.

	Each.	Per Doz.
Anglica. (English), Finest mixed. Large, handsome flowers	\$.05	\$.50
Hispanica. (Spanish). Flowers smaller than the English.		
Splendid mixed03	.15

Ixia.

Charming half-hardy plants of dwarf growth. Will grow well in the parlor or conservatory if protected from frost and freely watered.

Finest Mixed, 3 cts. each; 15 cts. doz.; 75 cts. per 100.

Lachenalias. (Cape Cowslip.)

Very pretty, spring flowering, bulbous plants from the Cape of Good Hope. They range in color from pale yellow to scarlet tipped with black and green, and yellow with brown spots.

Mixed Colors, 20 cts. each; \$2.00 per doz.

Leucojum. (Spring Snowflake.)

Hardy bulbs with fragrant white flowers, not unlike the snowdrop, but much larger and comes in bloom about a month later.

Leucojum Vernal, 5 cts. each; 40 cts. per doz.

Gloxinias make a handsome house plant.

Lilies.

October and November are the best months for planting outside; the soil should be deep, rich, and mellow, with good drainage, as nothing will injure the bulbs more than water collecting and standing around them. Do not put manure about the bulbs when setting, as it collects moisture and insects, and often causes the bulb to decay. Top dressing is the better way to enrich the soil after the bulbs are set. The beds should be well covered with leaves and strawy manure to exclude the frost.

LILIU HARRISIL

Harrisii. "True Bermuda Easter Lily." Large, trumpet-shaped flowers of purest white and delicious fragrance, one of the best for pot growing and forcing. Very choice, thoroughly ripened bulbs, from the finest stock in Bermuda.

First size bulbs. 10 cts. each; \$1.00 doz.; \$6.00 per 100.

Large bulbs. 20 cts. each; \$2.00 doz.; \$12.00 per 100.

Mammoth bulbs. 30 cts. each; \$3.25 doz.; \$25.00 per 100.

Longiflorum.

Pure white trumpet-shaped flowers, excellent for pot culture, hardy.

Large bulbs. 10 cts. each; \$1.00 doz.; \$6.00 per 100.

Extra large bulbs. 20 cts. each; \$1.75 doz.; \$12.00 per 100.

Mammoth Bulbs. 30 cts. each; \$3.25 doz.; \$25.00 per 100.

DEAR SIRS,—The bulbs purchased from you last year gave excellent results. The "Easter Lilies" were entirely free of disease, and the beds of Hyacinths and Tulips in the garden were the finest ever seen in this section.

JAMES KINSELLA, Hamilton, Mass.

Most of these Lilies are not ready for shipment until after frost.

Peruviana Alba. White, large and fine	.15	1.50	12.00

Snowdrops.

The pretty little Snowdrop is the first of all flowers to denote the approach of spring. Before the snows of winter have disappeared, the delicate flower is seen peeping through the ice. The culture of these is the same as that given for the Crocus. To produce the best effect they should be planted about twenty in each clump, and about two inches deep.

Elwesii. An exceedingly large and beautiful single variety; flowers snow-white, with emerald-green tube. 15 cts. per doz.; \$1.00 per 100.

Single. Pure white graceful bells; early flowering. 15 cts. per doz.; 75 cts. per 100.

Double. Flowers perfectly double, pure white. 25 cts. per doz.; \$1.50 per 100.

Sparaxis.

These are admirable plants for the conservatory or window; in appearance not unlike the Ixia, but dwarfier. They are of easy culture in pots, blooming in spikes of large flowers of very bright and varied colors.

Finest Mixed, 3 cts. each; 20 cts. per doz.; \$1.50 per 100.

Spirea or Astilbe.

Japonica. This beautiful plant produces in abundance dense sprays of small white flowers on neat erect stems. Its beautiful fern-like foliage, combined with its graceful flower heads, make it one of the best winter forcing plants for window or greenhouse.

10 cts. each; \$1.00 per doz.; \$5.00 per 100.

Gladstone. The plant forms very symmetrical, bushy specimens, and is remarkably free-flowering, producing large snow-white trusses; can be forced even easier than the ordinary Japonica. Strong clumps, 20 cts. each; \$2.00 per doz.

Japonica Compacta Multiflora. New large flowering. The most beautiful of all the set. The flowers are very large, of the purest white, and stand well above the foliage in charming, airy sprays. Perfectly hardy and unsurpassed for forcing.

10 cts. each; \$1.00 per doz.; \$6.00 per 100.

SPIREA JAPONICA

Spirea is fine for cut flowers

Spirea or Astilbe, Continued.

Astilboides Floribunda. A distinct Japanese species, with handsome, slightly hairy, divided foliage and long, feathery spikes of pure white flowers. Handsome border plant, and very attractive in pots. 15 cts. each; \$1.50 per doz. By mail add 10 cts. each for postage.

Trillium. (Wood Lily or Indian Shamrock.)

Hardy bulbs that require a shady position to grow them to perfection. Large, white flowers changing to a delicate rose color.

Trillium grandiflorum. 5 cts. each; 40 cts. doz.

Tritelia.

This is a perfectly hardy little gem, doing equally well in the house or planted in the open border; it grows in almost any soil, and each bulb will produce a number of star-shaped flowers with Primrose perfume; the flowers are of good substance and remain in bloom a long time; half a dozen bulbs in a five or six inch pot; when in flower are very attractive.

Uniflora. White, with blue tint. 2 cts. each; 15 cts. doz.; 75 cts. per 100.

Tritonia.

A very desirable class of free-blooming, bulbous plants. The colors vary from rosy white to scarlet. Plant in a light loam and give a cool, airy situation.

Mixed colors, 4 cts. each; 40 cts. doz.

Tuberoses.

All our Tuberoses are northern grown, and are hardier, more productive of large blooms, and of finer habit than southern bulbs.

Marshall. (S) Large, rich crimson; fine flavor	2.50
Layer Strawberry Plants. Layer plants of all the above sorts can be had in September or October	1.00

Mushroom Spawn. Milltrack.

CULTURE. — Take fresh horse manure, and use nothing but the fine portion of it, shaking out the straw. Mix this with fresh loam, one part loam and two parts manure, and turn every day to keep it from burning, until the fiery heat is nearly all out of it. Prepare the bed about four feet wide, and as long as required. Put in the preparation about eight inches deep, making it very solid as it is put in. Let it remain in this condition until the temperature has become reduced to ninety degrees. Make holes two or three inches deep, into which put the spawn, in pieces about as large as an egg, and at a distance of twelve inches apart each way. Cover the spawn and let it remain for eight or ten days. Then cover the whole bed with fine loam to the depth of two inches, making it firm with the back of a shovel or spade. If everything is favorably done the mushrooms will appear in from six to eight weeks. After the bed has been spawned, do not water unless quite dry, and when necessary use lukewarm water only.

Our Celebrated English Milltrack Mushroom Spawn (made by the best maker in England especially for our trade) has gained an enviable reputation among critical growers for its uniform good quality, and can be thoroughly relied on to produce a good crop of the best mushrooms. **At the Mass. Horticultural Society's Show this year Mushrooms produced from our Spawn not only received the first prize, but in addition received the Society's First-class Certificate of Merit. The Mushrooms were grown by A. W. Crockford of Medford, Mass. Lb., 12 cts.; 100 lbs., \$9.00**

Grey's Special Re-cleaned Lawn Grass.

The grasses used in this mixture are the purest that can possibly be procured and are entirely free from weeds or chaff. We have supplied this to the leading Golf Clubs and Parks, and it has always given satisfaction. There is nothing better. Sow 60 lbs. to the acre. Sold by weight, a measured bushel weighs 32 lbs. Per lb., 30 cts.; 5 lbs., \$1.40; 10 lbs., \$2.75; 100 lbs., \$25.00.

Perfect Lawn Food.

10 lb. bag, sufficient for 1,000 sq. ft., \$.50 | 50 lb. bag, sufficient for 5,000 sq. ft., \$1.60

Insecticides.

Aphis Punk.

APHIS PUNK is a special preparation of nikoteen for the extermination of green and black fly, thrip, etc., in greenhouses and conservatories. It is also effective in killing caterpillars on shade and fruit trees.

APHIS PUNK contains none of the ammonia which causes injury to delicate plants when heavy tobacco smoke is used.

APHIS PUNK is especially recommended for roses, carnations, chrysanthemums, heliotrope, smilax, and ferns. Price, per box of 12 rolls, 60 cts.

NIKOTEEN

A LIQUID INSECTICIDE

Nikoteen is composed of that element in tobacco which gives its value as an insecticide and nothing else. The best Extracts of Tobacco contain from 1½ to 2½ per cent.

of nicotine. This preparation contains 40 per cent. nicotine. Is the cheapest, cleanest, and most effective of insecticides and will not injure or discolor delicate plants. Pint bottle, \$1.50.

Thymo-Cresol. A highly concentrated and powerful preparation for dipping or washing SHEEP, and for ridding all LIVE STOCK of Parasitic Vermin. It forms a PERFECT SHEEP DIP, as it is rapidly fatal to all the insect pests which infest domestic animals, but is at the same time quite harmless to the animals themselves and to man. The method of preparation is extremely simple, as it mixes at once with either cold or warm water. It contains principles which promote the growth of the wool. "The only successful sheep dip in use." Pt., 45 cts.; one half gal., \$1.00; gal., \$1.75.

Fir-Tree Oil. A preparation for destroying insects and parasites, such as mealy bug, red spider, scale, thrip, green fly, fleas, etc. It answers every purpose as an insecticide, and when used as a wash for dogs or animals is harmless to the hands and skin. Full directions with each can. Half pt., 50 cts.; pt., 75 cts.; qt., \$1.25; half gal., \$2.50.

Tobacco Extract Rose Leaf. A perfectly pure, highly concentrated extract of Tobacco, always uniform in strength of nicotine poison. Destroys green fly, mealy bug, thrip, and red spider. Pt., 30 cts.; qt., 50 cts.; gal., \$1.50; 5 gal., \$5.00.

Tobacco Soap, Pinner's. Manufactured from the essential oil of tobacco, for the destruction of all insects, parasites, and their eggs. One half lb., 25 cts.; lb., 40 cts.

Tobacco Dust (Pure). A sure remedy for green fly, cheaper than snuff, and quite as effectual. 5 lbs., 25 cts.; 100 lbs., \$4.00.

Thymo-Cresol is certain in its work.

Insecticides, Continued.

Tobacco Dust and Sulphur. Prevents and cures mildew, kills green and black flies and other insects; has the double advantage of being a fertilizer as well as an insecticide. 1 lb., 10 cts.; 100 lbs., \$6.00.

Tobacco Stems. For fumigating. Invaluable as a mulch for rose beds, lettuce beds, etc., where insects frequently do much injury to roots or foliage. The best quality of stems supplied. Per bbl., \$1.00; in bales, 2 cts. per lb.

Tobacco Whale Oil Soap. Effective for scale, green and black fly, mealy bug, and red spider in greenhouses, hen lice, dog fleas. Price, per cake, 25 cts.

Little's Antipest. A safe and sure preparation for the destruction of all insect pests, equally suitable for greenhouse, garden, and orchard. Pt., 60 cts.; qt., \$1.00; gal., \$2.50.

Whale Oil Soap. For destroying insects on plants, trees, vines, etc., and for washing the bark of trees. 1 lb., 15 cts.; 5 lbs., 50 cts.

Flour of Sulphur. Prevents and cures mildew on plants. Lb., 8 cts.

Hellebore Powder. One of the best insecticides for green fly, rose slugs, currant worms, and other insects. Lb., 30 cts.

Persian Insect Powder. It is invaluable to the housekeeper for the destruction of flies, fleas, roaches, and other insects. Lb., 50 cts.

Fertilizers.

Clay's Fertilizer. This valuable imported manure is especially recommended to all who grow either fruit, flowers, or vegetables, and wish to bring them to the highest perfection. Should be used in potting soil and spread on staging of greenhouses planted with flowering plants, etc. Per bag of 28 lbs., \$2.25; 56 lbs., \$4.00; 112 lbs., \$7.00.

Sheep Manure, Pulverized. This is a pure, natural manure, and the most nutritious food for plants. Its effect is immediate, much more lasting and healthy than guano or any other manure. It is the best of all manures for mixing with the soil for greenhouse plants. It makes the richest, safest, and quickest liquid manure, without any deleterious effects.

DIRECTIONS.—For mixing with the soil, take one part manure to six parts soil. For making a liquid, take one pound manure to five gallons water, which can be used with safety, daily if necessary. 10 lbs., 50 cts.; 50 lbs., \$1.50; 100 lbs., \$2.50.

Guano Damaraland. A natural bird guano, equal in every particular to the old-fashioned *Peruvian Guano* of twenty years ago. 100 lbs., \$4.00; ton, \$65.00.

Perfect Lawn Dressing. It is manufactured from High Grade Concentrated Plant Food, is strictly odorless, and is especially prepared for top dressing lawns. It gives the grass a rich, green, velvety appearance, and it will drive out moss if the lawn is infested with it. 25 lbs., \$1.00; 50 lbs., \$1.60; 100 lbs., \$3.00.

Bone Flour, ground perfectly fine; excellent for pot plants or beds where an immediate effect is wanted. Per 100 lbs., \$3.00; in barrels, about 175 lbs., at 2½ cts. per lb.

Bone Meal. One of the best fertilizers to use for general purposes. 25 lbs., \$1.00; 50 lbs., \$1.50; 100 lbs., \$2.50; barrel about 200 lbs., at 2¼ cts. per lb.

Bone, Coarse or Cracked. Ground coarse for grape borders and poultry. 100 lbs., \$2.50; barrel about 175 lbs., at 2¼ cts. per lb.

Our Bone Fertilizers are prepared expressly for our trade, warranted strictly pure.

Our Sheep Manure is unexcelled.

Harding Preparations are the Best.

THOMAS J. GREY & CO., BOSTON, MASS.

SYRACUSE REVERSIBLE SULKY PLOW.

Steel Moldboards and Strips. Chilled or Steel Points.

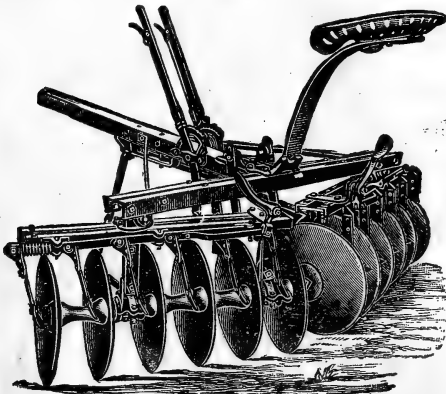

Does perfect work on hillside or level land. No ridges or dead furrows. Light and strong. Simple and practical. Power lift for raising the plows. An adjustable pole regulates the width of furrow, also avoids all side strain on the team. Lighter in draft than a hand plow doing the same work. (send for special circular.)

With each Sulky is furnished two extra Cast Points, two extra Jointer Points, a Screw Wrench, Neck Yoke, and Two-Horse Whiffletrees.

If it is desired to use three horses on the above Sulky, attachments can be furnished when ordered. Price, \$45.00.

SYRACUSE ALL STEEL-FRAME DISC HARROW.

For Crushing Clods, Pulverizing Hard-Baked Clay Land, or Cutting up Sod Ground No Harrow rivals the New Syracuse.

REPAIRS.

We carry a full line of repairs for all the leading Plows, Cultivators, Harrows, Mowing Machines, Rakes, Tedders, etc.

We have greatly enlarged our repairing department, and with our skilled mechanics, who have had many years' experience at this kind of work, we are now placed in the best possible position for repairing of all kinds of farm and garden tools

and implements. We devote special attention to this feature of our business, and can do **first class work at reasonable prices.**

We make a specialty of **repairing Lawn Mowers**, and, as we carry a complete stock of repairs for all leading machines, we are enabled to ship promptly and guarantee every machine we repair to work in a satisfactory manner.
